We believe that the best possible start in life for a child begins at home with their family. A nurturing, loving, stable family and home environment strongly determine a child's future life chances. Children whose parents are struggling to cope can miss out on the love, routine and support that are vital for their future.

Each year we have to turn away so many parents and children because we don't have the funds to help them all. When children face severe illness, or disability when their mother has postnatal depression or when their father loses a job and spirals into debt and mental ill-health or alcohol abuse, when they are in shocking housing or their family is threatened with losing their home... our volunteers want to be there for them – to help them and their whole family until they can cope again. We want to reach each child in their vital early years so they can have the best possible start in life. Very often we are the last chance they have.

Home-Start depends heavily on donations from people like you to fund our work with parents and children. Everyone needs help at some time in their life... please help us to make a difference to a child's life today.

We also offer help and support to individuals or companies looking to hold fundraising events on our behalf. Please reach out to us for support

Thank you,  
Home-Start Haringey, Hackney and Waltham Forest
